

SHREENIDHI M

 nshreenidhi655@gmail.com  +91 82961 33950  Bengaluru, India  shreenidhi-m03  SHREENIDHIMS

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in Java, Spring Boot, PostgreSQL, REST APIs, Docker, and Full Stack Development. Built production-style applications in e-commerce, food delivery, AI, and travel technology. Strong understanding of OOP, DBMS, Microservices, and Agile development practices.

TECHNICAL SKILLS

Programming Languages: Core Java, Python, JavaScript, C, HTML5, CSS3	Backend Spring Boot, Spring MVC, Hibernate, JPA, JDBC, REST APIs, Jakarta EE	Databases PostgreSQL, MySQL
DevOps and Tools Docker, Git, GitHub, Maven, Apache Tomcat	Design & UX Google UX Design principles, Figma (basic)	AI Tools: ChatGPT, Claude AI, GitHub Copilot, Cursor AI, Gemini, Prompt Engineering

PROFESSIONAL EXPERIENCE

Java Full Stack Developer Intern - Developed enterprise applications using Java, Spring Boot, PostgreSQL, and REST APIs. - Designed database schemas and backend services following Agile practices. - Containerized applications using Docker and managed code with Git/GitHub. - Applied layered architecture, DTO patterns, and software engineering best practices.	10/2025 – 05/2026 Tap Academy, Bengaluru
--	---

PROJECTS

E-Commerce REST API Platform, with individual microservices Tech Stack: Java, Spring Boot, Spring Data JPA, Hibernate, PostgreSQL, Docker, REST APIs, Maven - Developed production-grade REST APIs for products, cart, and order management. - Designed relational database schemas and Dockerized deployment. - Implemented DTO and Repository patterns. GitHub: E-Com Repository GitHub: github.com/SHREENIDHIMS/E-Com	02/2026 – 06/2026
OnlyFoods – Food Delivery Web Application Tech Stack: Java, JSP, Servlets, JDBC, MySQL - Built a complete food ordering platform with authentication and cart management. - Implemented BCrypt security and DAO architecture. GitHub: github.com/SHREENIDHIMS/OnlyFoods Live Demo: onlyfoods-production.up.railway.app	12/2025 – 2026
Smart AgriBot - AI-Based Crop Disease Detection, Academic Project, GITAM University, Bengaluru Tech Stack: Python, TensorFlow, CNN, OpenCV, Raspberry Pi, IoT Sensors - Built an AI-powered crop disease detection system with 90%+ classification accuracy. - Developed a web interface for disease diagnosis through image uploads. - Integrated IoT sensors and Raspberry Pi for real-time agricultural monitoring. - Enabled early disease detection and targeted treatment recommendations.	09/2024 – 2025
Folio Instrumenta – AI-Powered Virtual Music Studio & Instrument Recognition Platform Tech Stack: AI Image Recognition, Browser Audio APIs, Modern Web Technologies, UI/UX Design, Lovable AI - Built a virtual music studio with instrument recognition from uploaded images. - Integrated AI-powered educational insights and collection management. Live Demo: https://folio-instrumenta.lovable.app/	04/2026
RoamAI – AI-Powered Travel Planning Platform Tech Stack: AI Agents, LLMs, Prompt Engineering, Travel Intelligence, Modern UI/UX - Created an AI-powered itinerary and travel recommendation platform. - Designed conversational travel workflows and trip optimization features. Live Demo: https://roam-ai-voyage.lovable.app	05/2026 – 05/2026

CERTIFICATES

Google UX Design Professional Google	SQL: A Practical Introduction for Querying Databases IBM	Fundamentals of C Programming FacePrep
--	--	--

VOLUNTEER EXPERIENCE

Community Volunteer, Aikyam - Participated in road-cleaning and garbage collection drives, contributing to community hygiene. - Raised awareness about environmental responsibility through outreach campaigns. - Assisted in organizing community programs, developing leadership and coordination skills.	2021 – Present Mysuru, Karnataka
--	-------------------------------------

EDUCATION

B.Tech Computer Science and Engineering, GITAM University CGPA: 7.08 / 10.0	2021 – 2025 Bengaluru, India
12th Grade (Science), Nisarga Independent Pre-University College Score: 76%	2019 – 2021 Chamarajanagara, India
